ATTACHMENT

Question 15

Two wells will be drilled and equipped to pump into a Quasi-Municipal water system which will serve 23 dwelling units. The water system will include a 253,000 gallon storage tank. This Application and another Application filed concurrently change a portion of Permit 54401 into the two proposed wells. One half (1/2) of the amount required for the 23 lots at 1.12 acre foot per lot (12.88 acre feet or 4,196,961 gallons per year) is being transferred into each well. The water rights and water system will be dedicated to Douglas County.

A copy of the Tentative Map for Sierra Country Estates, which has been approved by Douglas County, is enclosed.
